Quantus Ultra

Permanent Hair
Removal in 4 - 6 Sessions*

WWW.UNITEDSKINCARE.IN

QUANTUS ULTRA

Theory

Quantus Ultra laser hair removal System, adopts the light selective absorption theory, heating the hair shaft and hair follicle to destroy the hair follicle and oxygen organization around hair follicle, thereby to get the permanent hair removal purpose.

The patent Pulse Width to Energy 1:1 working mode, makes the energy penetrating more effective, less thermal destroy to the surrounding tissue, meanwhile, the stable anti-ice cooling technology, protects skin from burny finally getting a wonderful result.

Technical Advantages

01 Handle

- 12*20mm spot size for Faster Full body
- Hair removal Treatment
- 0.7kg Lighter Applicator
1200 Watt handle

Spot Size:12*20

02 6MM QTIP

- 6 mm Tapered Tip makes easier operation on small area hair removal

Spot Size:6mm

HANDLE

1200W HIGH POWER

Device for hair removal,
short pulse width,
more comfortable feeling

The LED screen displays heating energy
and the number of rounds used, for easy
viewing at any time

Sapphire crystal

Best light and cold conductivity,
ensuring the effectiveness and
comfort of the treatment

FACIAL TIP 6mm

Reaching the hard to reach

The special Facial TIP allows treatment of hard to
reach areas, including the ears, nostrils and glabella.

LIGHT BEAM FOCUSING TECHNOLOGY

Laser bar + German aspheric optical microlens

True 1200w Laser Configuration 2 CRORE PLUS SHOTS

Water Flow Sensor

Electronic sensors, high sensitivity and fast signal processing; Detect water flow and water temperature, and the machine will alarm when abnormality occurs.

PARAMETERS

Model	Prime Ultra
Laser type	Diode laser
Laser wavelength	808nm 1064nm,755nm,940nm
Display	15.6 inch touch screen
Laser power	1200W (10 bars*120W)
Rated input power	2000W
Pulse duration	5-400ms
Energy	120J
Spot size	12*20 mm and 6 mm
Repetition frequency	1-10Hz
Temperature of probe	-10°C~5°C
Cooling	Water+Air+ TEC
Electrical	100~240V,50/60HZ
Packing	Aluminum alloy case
Dimension	121*79*61cm
